

Carolinah HealthCare Foundation

Infant & Children Funds

- **Anna's Gift Fund**
Founded in memory of Anna Evans, this fund provides bereavement support to families who have experienced the loss of an infant cared for by CMC Maternity Units and also supports bereavement outreach and education within CHS and other area hospitals.
- **Carolinah Kids Cancer Research Fund**
The Carolinas Kids Cancer Research Fund is dedicated to advance Phase I and Phase II Clinical Trials at Levine Children's Hospital and provide the most advanced treatment to children of the Carolinas.
- **The Charlotte Fetal Care Fund**
The Charlotte Fetal Care Fund supports a broad spectrum of treatment advances, faculty research, patient support programs, educational endeavors, and other related activities associated with the Charlotte Fetal Care Center at Carolinas Medical Center.
- **Child Life Fund**
Supports essential recreational and educational programs conducted for hospitalized pediatric patients by the Child Life staff of Levine Children's Hospital.
- **The Children's Special Needs Fund**
The Children's Special Needs Fund provides funding to deserving families of children being treated at Levine Children's Hospital who require financial assistance to pay for medically necessary utility bills, transportation, services, supplies, equipment and special programs.
- **The CHS IVF Family Fund**
The CHS IVF Family Fund provides grants for patients with infertility that require financial assistance for assisted reproductive techniques such as in vitro

fertilization and frozen embryo transfer at the Reproductive Medicine and Infertility center.

- **The Cottie & Cake Fund**

Established in 2011 by the Hampton family and friends to honor their twins, Scotlynn and Katelynn, in appreciation of the care they received at Levine Children's Hospital. Funds support the Neonatal Intensive Care Nursery at LCH as well as prenatal research at Charlotte Fetal Care Center.

- **The HEARTest Yard Fund**

The HEARTest Yard Fund provides support for the HEARTest Yard initiative, which is a collaboration between the Greg Olsen Foundation and Levine Children's Hospital designed to make the transition from the hospital to the home much easier for families of children affected by congenital heart disease.

- **Joining Hearts Pediatric Cardiology Fund**

Supports the advancement of pediatric cardiology programs and research at Sanger Heart & Vascular Institute. While promoting educational opportunities for caregivers and physicians, the fund also positively influences the level of care provided to children suffering from congenital pediatric cardiac conditions. Additionally, the fund helps to provide support programs for families of pediatric cardiac patients.

- **The LCH Advancement Fund**

The Levine Children's Hospital Advancement Fund benefits programs and services at Levine Children's Hospital (LCH). Funds are used to sustain, enhance, and expand the pediatric and newborn programs that LCH provides the community.

- **The LCH Cardiac Intensive Care Fund**

This fund supports key elements of patient care and patient / family support related to the Ricky Hendrick Centers for Intensive Care at Levine Children's Hospital.

- **Neonatal Intensive Care Fund**

Supports equipment improvements, furnishings enhancements, specialized nursing education, and patient/family support programs associated with the Neonatal Intensive Care Unit within Levine Children's Hospital.

- **Partnership for Pediatric Hearts Fund**

The Partnership for Pediatric Hearts provides funding to support pediatric cardiovascular services and the pediatric congenital heart program at Levine Children's Hospital.

- **Pediatric Cancer Fund**

Supports patient/family support activities, capital improvements, and research programs associated with Carolinas Medical Center's Pediatric Oncology division.

- **Pediatric Immunodeficiency Fund**

The Pediatric Immunodeficiency Fund provides support for various activities to enhance the pediatric immunodeficiency support group at Levine Children's Hospital.

- **Pediatric Nephrology Fund**

The Pediatric Nephrology Fund provides funding for the Pediatric Nephrology Department at Levine Children's Hospital.

- **Sloan Chambers Fund**

The Sloan Chambers Fund provides funding to positively impact teenagers battling cancer at Levine Children's Hospital.

- **Valya E. Visser Endowment for Pediatric Education**

This Endowment honors Valya E. Visser, M.D., past chairman of the Department of Pediatrics at Carolinas Medical Center, for her insightful leadership and commitment to the care and healing of children. Donations will help enhance education and research opportunities for pediatric residents and faculty at CMC and Levine Children's Hospital.

Cancer Funds

Ways to Donate to Cancer Funds:

Carolinas HealthCare Foundation gratefully accepts donations which can be directed to any of the cancer funds listed below, or simply to Levine Cancer Institute.

Checks: Make to "Carolinas HealthCare Foundation." Address as follows: "Levine Cancer Institute Fund Name (see examples below)" c/o Carolinas HealthCare Foundation, 1221 E. Morehead St., Charlotte, NC 28204.

Cancer Fund Descriptions

- **LCI Advancement Fund**
Supports the areas of greatest need at Levine Cancer Institute
- **The Cancer Research Innovations Fund**
Supports clinical trials and related research conducted at Levine Cancer Institute
- **Carolinas Bladder Cancer Fund**
Supports innovative bladder cancer research programs
- **Carolinas Brain Cancer Fund**
Supports innovative clinical research studies to advance the treatment of brain cancer at Levine Cancer Institute
- **Carolinas Breast Cancer Fund**
Supports patient education and outreach programs, as well as clinical research and treatment initiatives
- **Carolinas Colon and GI Cancers Fund**
Primarily supports patient education and outreach programs, as well as clinical research and treatment initiatives
- **Carolinas Hematology Research Fund**
Supports innovative research efforts by LCI physicians and scientists designed to enhance the treatment and diagnosis of cancers of the blood or lymphatic system such as leukemia, lymphoma, and myeloma.

- **Carolinas Integrative Oncology Fund**

Integrative oncology takes into account the whole person, including all aspects of lifestyle. The Fund supports safe, evidence-based complimentary therapies combined with the best conventional cancer treatments and medical practices.

- **Carolinas Melanoma & Immunotherapy Fund**

Supports research and education programs chiefly designed to advance the prevention, diagnosis, and treatment of melanoma

- **Carolinas Myeloma Research Fund**

Advancing research and treatment of multiple myeloma and related disorders at Levine Cancer Institute

- **Carolinas Ovarian Cancer Fund**

Supports research related to treatment and early diagnosis of ovarian cancer as well as supports patient education and community awareness programs

- **Carolinas Pancreatic Cancer Fund**

Supports local research at Levine Cancer Institute designed to advance the treatment and early diagnosis of pancreatic cancer.

- **KEEP POUNDING® Fund**

Honoring the late Carolina Panthers player and coach Sam Mills as well as former player Mark Fields, the KEEP POUNDING® Fund advances and supports research efforts related to a wide variety of cancers, focusing especially on bringing the latest, most advanced experimental cancer trials to LCI. The Fund also supports innovative cancer survivorship activities, such as the "LCI Cancer Wellness Program."

- **LCI Patient Special Needs Fund**

Established to help cancer patients overcome some of the financial barriers associated with completing their treatments. This Fund is designed to provide

partial, short-term assistance to help eligible patients with costs such as household bills, transportation, prosthetic devices, and temporary lodging.

- **Mark Daidone Cancer Research Endowment**

Supports advancements in early-stage cancer clinical research trials, patient programs, and provides educational opportunities to cancer research nursing staff focused on learning more about new treatment methods

- **McKay Urology Research Fund**

Supports prostate cancer and other urology-related research activities

- **P Strong Fund**

Supports innovative clinical research studies to advance the treatment and/or diagnosis of rare and complex forms of cancer such as appendiceal cancer

- **Paula Takacs Sarcoma Research Fund**

Supports innovative clinical research studies to advance the treatment of sarcoma at Levine Cancer Institute

- **The Rare & Complex Cancers Fund**

Advances patient support programs, education, and research for rare and complex forms of cancer. Such cancers would include but not be limited to diseases such as brain tumors, sarcomas, hepatobiliary cancer, esophageal cancer, mesothelioma, endocrine cancer, and other rare and complex forms of cancer.

- **Russell C. Guerin Melanoma Research Fund**

Established in 2012 by several Charlotte families to honor their good friend, Russ Guerin, the fund is dedicated to supporting clinical and scientific research at Levine Cancer Institute targeted toward finding effective treatments for metastatic melanoma

Neurological Disorders Funds

- **Carolinas ALS Endowment**

Initiated in the mid 1990's in an effort to create an ALS Center in Charlotte in association with CMC, this perpetual endowment provides substantial annual operating support for treatment, patient support, education, and research programs conducted by the Carolinas Neuromuscular / ALS-MDA Center at Carolinas Medical Center.

- **Carolinas ALS Research Fund**

Supports clinical and scientific research activities directed toward enhanced diagnosis and treatment of ALS. All research is conducted under the direction of the Medical Director of CMC's Carolinas Neuromuscular / ALS-MDA Center.

- **Carolinas Muscular Dystrophy Research Endowment**

Initiated in 2003, this fund is dedicated to research for select types of muscular dystrophy, particularly Limb/Girdle, which is currently being conducted at CMC's Cannon Research Center.

- **The Carolinas MS Fund**

This fund seeks to involve local families who have been touched by multiple sclerosis (MS) in fundraising to support a broad array of clinical research and innovative treatment initiatives conducted by the MS Center at Carolinas Medical Center.

- **Carolinas Parkinson Disease and Movement Disorders Endowment**

This endowment was initiated in 2007 to sustain and enhance the comprehensive treatment, education, and research programs at CMC's New Center for Parkinson Disease and Movement Disorders. The Foundation and volunteer fundraising leadership are seeking to build a \$5 million endowment in order to support dedicated physical and speech therapy positions, patient counseling and support efforts, translation research programs, and alliance with complementary and alternative medicine providers. A \$1 million challenge gift from John Crosland, Jr., will be "triggered" once the first \$4 million is raised.

- **The Mike Rucker ALS Care Fund**

This fund was named in honor of former Carolina Panthers player Mike Rucker, who has been a long-time fundraising champion and advocate for the Carolinas Neuromuscular/ALS-MDA Center. This Fund supports respite care-giving for ALS patients and their families served by The Carolinas Neuromuscular/ALS-MDA Center at Carolinas Medical Center. ALS patients face numerous challenges in their daily routines, relying heavily on constant personal assistance and care from family and close friends. Thanks to the establishment of the Mike Rucker ALS Care Fund, ALS patients and families treated by the ALS Center can receive meaningful financial support for this invaluable service, helping them cope with all the challenges they must face on a daily basis.

- **The PinStripes Fund**

This fund supports initiatives of the Carolinas Neuromuscular / ALS-MDA Center that directly affect the comprehensive care of its patients and further advance research and treatment programs. Proceeds from PinStripes events and other designated gifts contribute to the growth of this fund.

Heart & Vascular Funds

- **Carolinas Cardiovascular Health & Rehabilitation Fund**

This Fund enables CMC to sustain the growth and development of the Cardiac Rehabilitation Program while expanding the scope of its cardiovascular health research programs. In addition, the Fund supports specialized education opportunities for caregivers and advances the growth of community education programs conducted by the Carolinas Medical Center.

- **The HEARTest Yard Fund**

Provides support for the HEARTest Yard initiative, which is a collaboration between the Greg Olsen Foundation and Levine Children's Hospital designed to make the transition from the hospital to the home much easier for families of children affected by congenital heart disease

- **Nalibotsky Family Heart Transplant Fund**

Established by the family of heart transplant patient Philip Nalibotsky in 2003, this fund supports education and patient outreach activities to advance CMC's heart transplant program.

- **Partnership for Pediatric Hearts Fund**

Supports pediatric cardiovascular services and the pediatric congenital heart program at Levine Children's Hospital

- **Sanger Heart & Vascular Institute Fund**

Initiated in the mid 1980's at the time of the inception of the Heart Institute, this fund supports capital improvements, programs, and patient education within Sanger Heart & Vascular Institute.

Research & Education Funds

- **Carolinas Nursing Endowment**

Initiated in the early 1990's in conjunction with the creation of Carolinas HealthCare System's Carolinas College of Health Sciences, this fund represents a collection of individual scholarship endowments for nursing scholarships benefiting students of The School of Nursing at The Carolinas College of Health Sciences.

- **Teresa Flippo-Morton, MD, Surgical Oncology Fund**

Honoring Dr. Teresa Flippo-Morton's distinguished career at Levine Cancer Institute as a skillful surgeon and remarkable mentor to residents and fellows, Carolinas HealthCare Foundation has established the *Teresa Flippo-Morton, MD, Surgical Oncology Fund*. The Fund will support an array of educational and research opportunities for residents and fellows in the surgical oncology specialty, as well as notable LCI faculty educational endeavors in this area.

- **Carolinas Transplant Center Fund**

Supports research and education programs associated with liver, kidney, heart and other transplant programs of the Transplant Center at Carolinas Medical Center

- **CCHS Advancement Fund: Nursing & Allied Health Education**

One of the largest nursing education programs in North Carolina, Carolinas

Current Funds: Updated November 2015 for www.GiveCarolinas.org

College of Health Sciences is the largest hospital based college in the state. Student scholarships as well as equipment, supplies, and faculty support are made possible by gifts to The Carolinas College of Health Sciences.

- **Emergency Medicine Research & Education Fund**
Supports research studies and resident/faculty education programs conducted by CMC's Department of Emergency Medicine
- **F. H. Sammy Ross Trauma Center Endowment**
Initiated in 2001, this endowment fund provides substantial annual support for research studies, treatment initiatives, and educational programs at CMC's Sammy Ross Trauma Center.
- **Mercy School of Nursing Fund**
Provides annual support for various individual scholarships awarded to meritorious students at Carolinas Healthcare System's Mercy School of Nursing.
- **Michael L. Rose Endowment for Excellence in Children's Healthcare**
Supports annual Excellence Award(s) to be awarded to front-line nursing, therapy, or child-life staff at Levine Children's Hospital to pursue meaningful continuing education opportunities
- **Nurse Anesthesia Program Fund**
Supports capital improvements and programmatic advancements for Carolinas Healthcare System's Nurse Anesthesia School.
- **Nursing Education Fund**
Supports specialized education programs and conferences for Carolinas Medical Center nursing staff.
- **Oral Medicine Institute Fund**
This endowment fund provides annual support for the important research and education activities of Carolinas Medical Center's Department of Oral Medicine.

- **Orthopaedic Research Advancement Fund**

Supports capital improvements, specialized equipment, educational conferences, resident research studies, and other items designed to advance the research efforts of the Orthopaedic Surgery Department at Carolinas Medical Center.

- **Wallace C. Nunley, Jr. Endowment for Women's Health**

Provides annual support for resident research and education programs, as well as notable faculty educational endeavors associated with the Department of Obstetrics & Gynecology at Carolinas Medical Center.

- **W. Duke Kimbrell Rehabilitation Research Endowment**

Initiated in 2009 with a \$300,000 "challenge" pledge from Mr. W. Duke Kimbrell, this Endowment advances ground-breaking research programs conducted by faculty physicians associated with Carolinas Rehabilitation hospitals and outpatient facilities. Currently all gifts to the Endowment are being matched 100% by the W. Duke Kimbrell Family Foundation.

- **Valya E. Visser Endowment for Pediatric Education**

This Endowment honors Valya E. Visser, M.D., past chairman of the Department of Pediatrics at Carolinas Medical Center, for her insightful leadership and commitment to the care and healing of children. Donations help enhance education and research opportunities for pediatric residents and faculty at CMC and Levine Children's Hospital.

Other Choice: Special Funds

- **The CHS IVF Family Fund**

The CHS IVF Family Fund provides grants for patients with infertility that require financial assistance for assisted reproductive techniques such as in vitro fertilization and frozen embryo transfer at the Reproductive Medicine and Infertility center.

- **Premium Assistance Fund**
Provides premium subsidies for lower income Charlotte-area patients, as a supplement to federal subsidies, so that they can participate in the federal health insurance marketplace and purchase and maintain appropriate health insurance for themselves and their families.
- **Palliative Care Fund**
Supports educational literature for patients / families undergoing palliative care, community educational programs regarding advanced directives, a “comfort cart” to provide cd’s, cd players, and other relaxation items to patients, and memory packages for families to share with palliative care patients.

Other Choice: General Funds

- **Adaptive Sports & Adventures Program Fund**
Created to address the functional and leisure needs of youth and adults living with a disability, the fund supports local adaptive programs as well as purchasing adaptive equipment.
- **Carolinas Pastoral Care Endowment**
With help from the Endowment, the Pastoral Care Program will continue to make important strides researching the interaction between spiritual and physical health. In addition, the Endowment will provide funding for faculty and residency positions and support Chaplain’s Grand Rounds– an educational series that focuses on the link between mind and body, faith and health.

Other Choice: Research and Education

- **Michael L. Rose Endowment for Excellence in Children’s Healthcare**
Supports annual Excellence Award(s) to be awarded to front-line nursing, therapy, or child-life staff at Levine Children’s Hospital to pursue meaningful continuing education opportunities

Other Choices: Emergency Medicine / Trauma

- **John A. Marx, M.D. Scholarship Fund**
Supports research initiatives led by CMC Emergency Medicine faculty and residents

Other Choices: Surgery / Transplant Funds

- **Carolinas Surgical Fund**
Supports educational, social and outreach activities involving Carolinas Medical Center Department of Surgery trainees and alumni, along with faculty
- **Carolinas Transplant Center Fund**
Supports research and education programs associated with liver, kidney, heart and other transplant programs of the Transplant Center at Carolinas Medical Center
- **CLASP Fund**
The CLASP Fund (which stands for Carolinas Laparoscopic and Advanced Surgery Program), supports advanced surgical procedures at Carolinas Medical Center, including minimally invasive surgeries. The fund provides support for advanced medical education opportunities, including postgraduate courses and fellowships; the fund also offers initial funding for medical and technology enhancements.
- **Nalibotsky Family Heart Transplant Fund**
Established by the family of heart transplant patient Philip Nalibotsky in 2003, this fund supports education and patient outreach activities to advance CMC's heart transplant program.
- **Anne and Epes Robinson Fund for Liver Transplant Medicine**
The Anne and Epes Robinson Fund for Liver Transplant Medicine supports Carolinas HealthCare System's Center for Liver Diseases. The fund supports faculty and resident research activities, educational programs to advance specialized knowledge among physicians and nursing staff at the Center, and treatment innovations that enhance care for liver transplant patients.
